QA ENGINEER F/M

WHO WE ARE

CrefoPayment GmbH & Co. KG, based in Berlin Schöneberg, is dedicated to providing merchants with a reliable solution to accept payments with all common payment methods, both in e-commerce and via POS. We collaborate with the Creditreform corporate group, one of the leading international suppliers of economic information and dunning services. By combining innovative strategies with cutting-edge technologies, we provide our customers with bespoke risk- and payment control, whilst offering an end-to-end solution at a fair price. We realise this by constantly improving our high-performance processing platform with unique fraud-prevention methods, making use of the full range of services offered by the Creditreform corporate group and through our professional, service-oriented team.

WHAT WE OFFER

- A full-time position as a QA engineer
- A motivated international team living a professional yet open company culture
- A working environment with flexible processes and a high personal responsibility
- A chance to play an active role in further shaping a successful company

YOUR ROLE

- Design and develop test plans and cases based upon functional and design specifications
- Create and conduct automatic and manual tests and continually review and update our test suites
- Participate (pro)-actively in a variety of testing activities to test our product in terms of service, UI level and performance, both during regular work hours and nightly deployments
- Utilize analytical skills in determining the root cause of problems and work closely with the development team to analyze, debug and resolve any issues
- Enhance quality functional testing by identifying and helping to implement initiatives that will improve capability and efficiency

WHAT YOU PROVIDE

- BCs/MSc in Computer Science or equivalent
- Minimum of 3 year of software testing experience
- Strong knowledge of QA processes and methodologies
- Knowledge of creating automated tests with Selenium, JBehave, JUnit, and optionally QUnit
- English speaking and the ability to produce documentation in English
- Basic Java knowledge is a must
- MySQL skills are an advantage
- Experience with Scrum methodology and with issue trackers (preferably Jira, Confluence) is an advantage

YOUR ENTRY

If we have caught your attention, we look forward to receiving your application (cover letter and C.V.) to bewerbung@crefopay.de.
